

**INFRA RESOLUTIONS, INC.**

## Optics and Memory by INFRA

### Power. Connectivity. Quality.

INFRA brand products and accessories are the same quality as the OEM and offer you affordable alternatives.

### INFRA's Differentiators

- INFRA products undergo rigorous testing and verification to guarantee the highest quality, reliability, and compatibility across any product or platform.
- We provide a true lifetime warranty with advanced replacement on all INFRA brand products.
- Our OEM-compatible devices are sold at up to 90% off of OEM list price.
- These items are sourced from the same high-quality suppliers used by the original equipment manufacturer. They are compatible with virtually all OEM platforms, and comply with industry specifications.

### Global Delivery

We stock equipment in our three distribution centers located in North America, Europe and Asia, enabling us to ship products to every major city in the world in a matter of days, including same day shipping on most products.

### Optical Transceivers & Memory

- INFRA optics are available in all form factors – SFP, SFP+, QSFP, X2, XENPAK, XFP, and GBIC – ranging from 100MB to 40GB offerings. INFRA Tier 1 approved memory comes in 8, 16, 32, and 64 GB capacity.
